Subject: Animal Testing

Date: July 1st, 2015

Thank you for your interest in **ABBA**® and **MOP**® products.

Our company has a strict policy that animals can **NEVER** be used for testing in the creation, development or formulation of our products.

We require all of our raw material and ingredient suppliers to sign a commitment stating that none of the raw materials or ingredients that they sell to us are ever tested on animals. We also have a strict termination policy if we discover that one of our suppliers has violated their commitment.

Like you, we never want to see animals harmed and are proud to produce and sell Cruelty-Free beauty products.

Thank you again for your purchase and please let us know if you have any questions or concerns.

Sincerely,

- *The STARS Creations Management Team*
